GClingua Client Portal
Step-by-Step Guide

This guide has been prepared to help you understand how to use the GClingua Client Portal. You will be able to see all the steps for submitting a project to the Translation Bureau, tracking the status of a project and receiving a completed request through the Client Portal.

In GClingua, a service request is defined as a **project**. When the information related to a project has been entered and completed, the client can send the project to the Translation Bureau.

Log in

1. Log into the **Client Portal** by clicking on this link: https://base-gc-lingua.canada.ca/index. After selecting your preferred official language, you will be redirected to the GClingua login page and you will be able to log in using your username and password.

   Note that after registering your preferred interface language (see the **Profile** section of the guide), you can directly access GClingua with the following link: https://gc-lingua.canada.ca.

To log into the Client Portal, you have to enter your **Username** and your **Password** and then click on **LOGIN**. If you select the **Remember My Username** checkbox, your username will already be filled out for you the next time you come to the login screen.

Once you are logged in, the client **Dashboard** will be displayed.

Please use the recent versions of Google Chrome, Mozilla Firefox or Microsoft Edge when connecting to GClingua. Internet Explorer 11 (IE11) is not fully compatible.

Client Portal

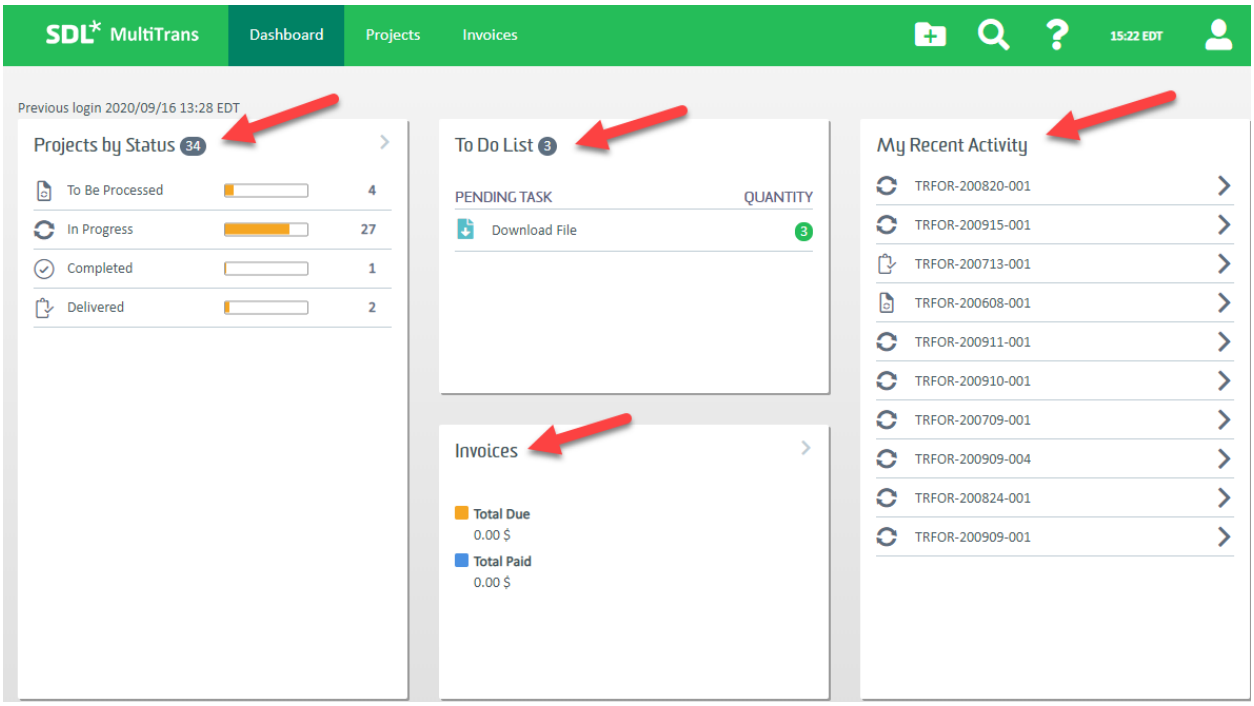
The interface of the Client Portal has three major tabs on the header for easy access to the main overviews: **Dashboard**, **Projects** and **Invoices**. In the upper right-hand corner, you can also access the **New Project**, **Search** (for both **Simple** and **Advanced Searches**) and **Help** functions as well as the **My Profile** and **Logout** options.

The Client Portal opens to the **Dashboard** by default.

Dashboard

The **Dashboard** is designed to give you access to all the important information at a glance. On the **Dashboard**, you will see the following information:

- Projects by Status
- To Do List
- My Recent Activity
- Invoices



Projects by Status

In the **Projects by Status** list available on your **Dashboard**, you will see all status for which you have at least one project.

The possible status are as follows:

- **To Be Processed:** projects that have been submitted but for which the work is not yet underway.
- **Waiting for Quote:** projects for which a quote must be provided before the work can start.
- **Waiting for Approval:** projects for which a quote has been provided and is pending your approval before the work can start.
- **In Progress:** projects that are underway.
- **Completed:** projects that have been completed and closed over the last three months.
- **Delivered:** projects that have been delivered over the last three months.
- **Cancelled:** projects that have been cancelled.
- **Customer Review:** in-progress projects that are pending your review prior to delivery.
- **Pending Delivery Review:** delivered projects that are pending your review.

Selecting a status opens the **Projects** page, which is filtered to show only projects with the selected status.

To Do List

The **To Do List** section shows the projects that require your attention.

This section includes projects with the statuses **Waiting for Approval** (you need to approve a quote in order to launch the project), **Customer Review** (you need to review and sign off on a document) and **Delivered** (you have final documents available to download).

Selecting a pending task opens the **Projects** page, which is filtered to show only projects with the selected status.

My Recent Activity

The **My Recent Activity** section lists the projects you have opened or edited most recently.

The icons to the left of each project number correspond to the statuses displayed in the **Projects by Status** list.

Selecting a project from this section opens that project for editing.

Invoices

The **Invoices** section on the **Dashboard** allows you to view the total amount due and total amount paid over the last three months. Selecting the arrow to the right of the Invoices title opens the **Invoices** page, where you can view more details and retrieve individual invoices.

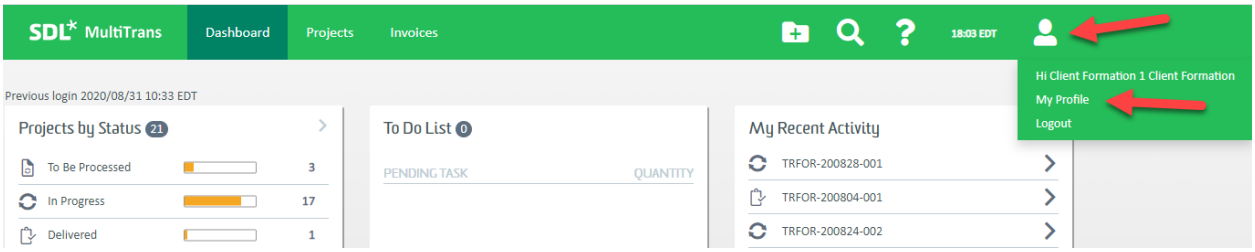
Note: Your client advisor must give you access to retrieve your invoices through the Client Portal. If you do not see the **Invoices** tab or section on your **Dashboard**, speak to your client advisor.

Profile

The **Profile** icon gives you access to the **My Profile** and **Logout** functions.

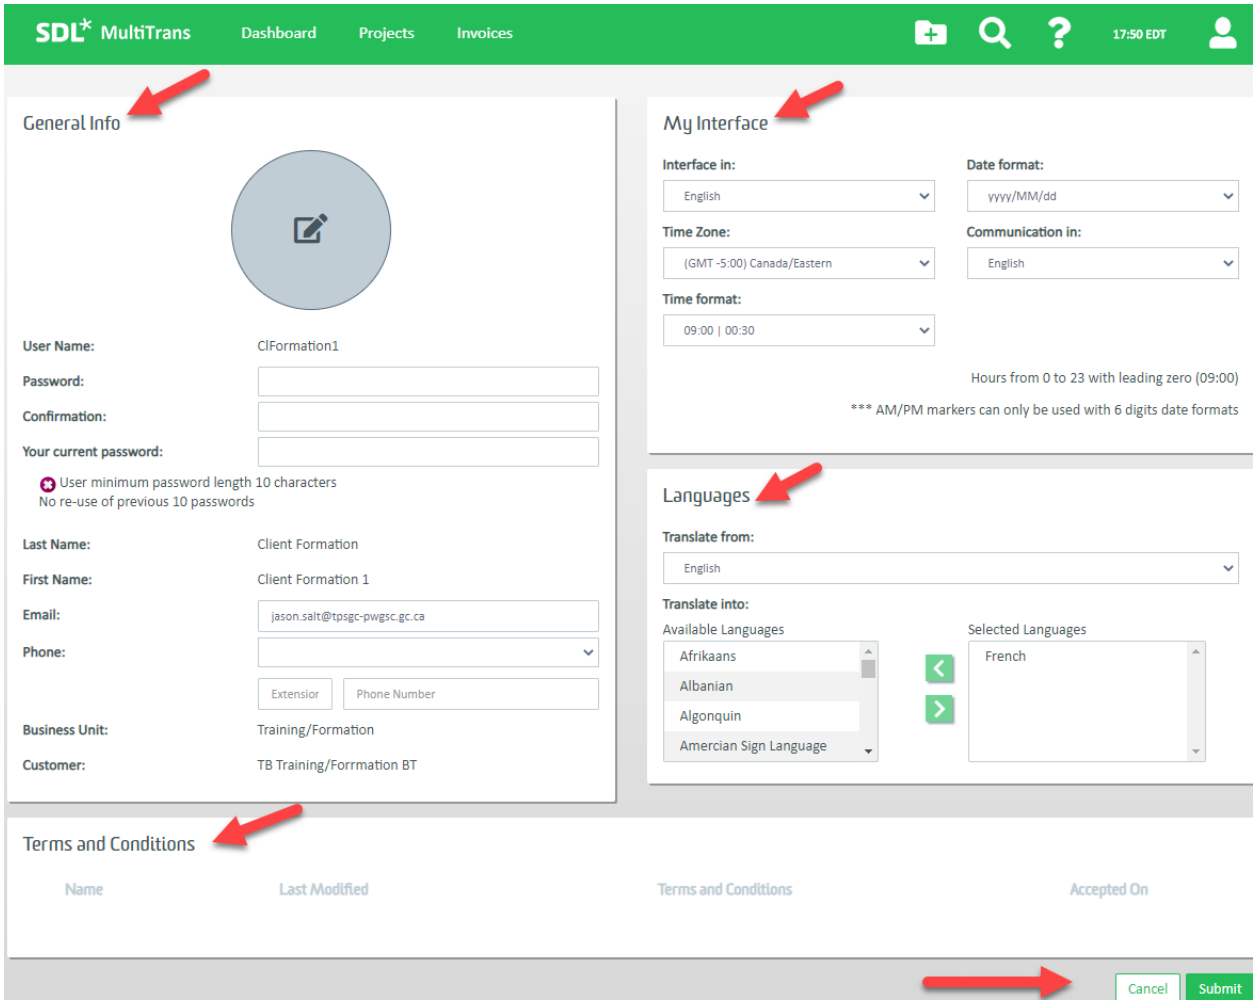
My Profile

The **My Profile** option allows you to modify your profile settings. To modify your settings, click on the **Profile** icon in the upper right-hand corner and choose **My Profile** in the drop-down menu, as shown below:



The following settings can be modified under **My Profile**:

- Password
- Email address
- Phone number
- Interface language
- Time zone
- Time format
- Date format
- Communication language
- Frequent language combination

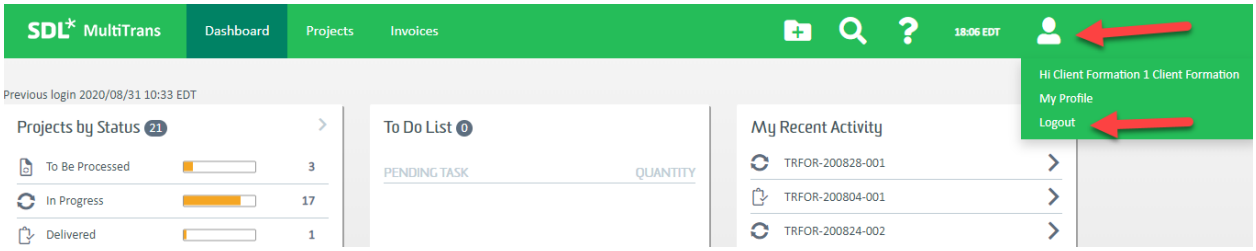


This is also where the **Terms and Conditions** section is displayed. Here, you will see the name of the person who accepted the Terms and Conditions upon creation of the account, the last modification date, and the date on which the Terms and Conditions were accepted.

Once you have modified your profile, click on the **Submit** button to submit the changes. To cancel the changes, click on the **Cancel** button.

Logout

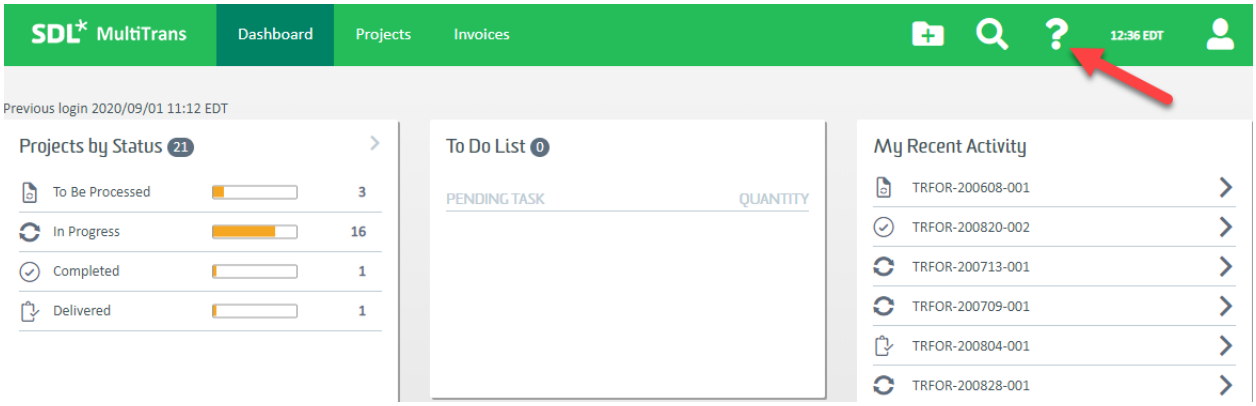
The **Logout** option allows you to end the GClingua session. To log out of your GClingua session, click on the **Profile** icon and select **Logout** in the drop-down menu, as shown below:



Help

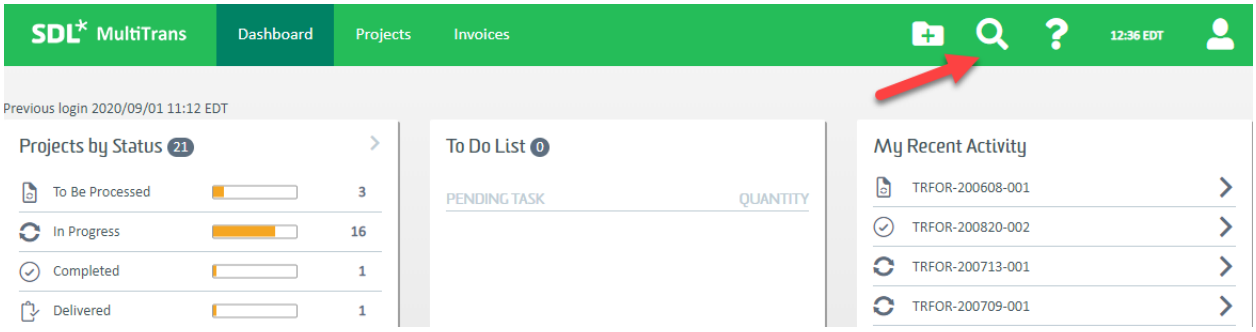
The **Help** icon in the upper right-hand corner of the screen allows you to access:

- Online Help.
- Self-Training.
- Support.

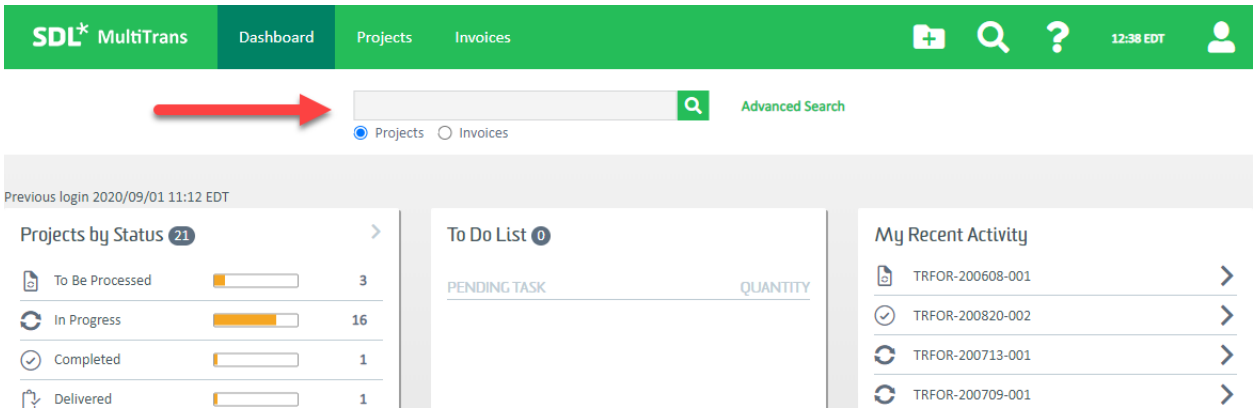


Search

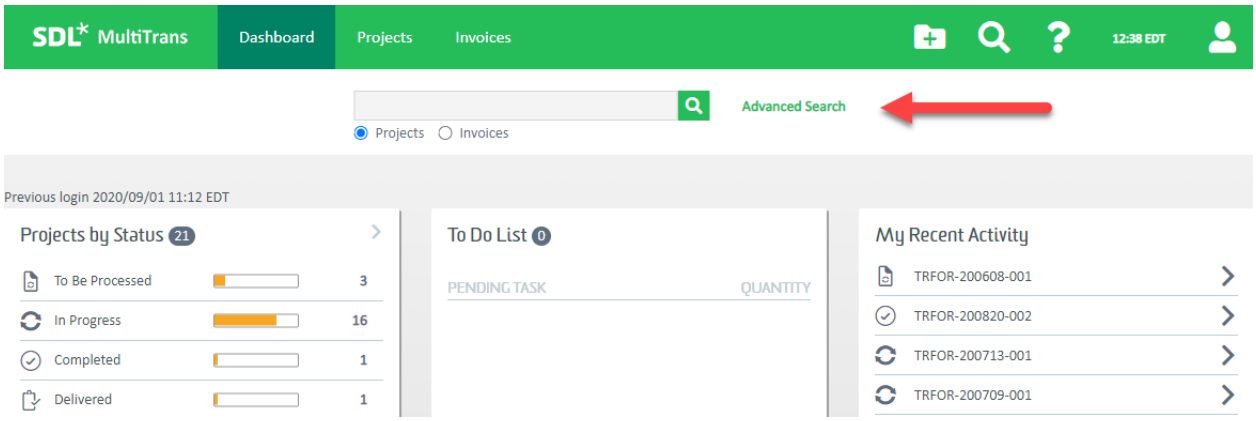
You can search for projects or invoices by clicking on the **Search** icon in the upper right-hand corner of the screen.



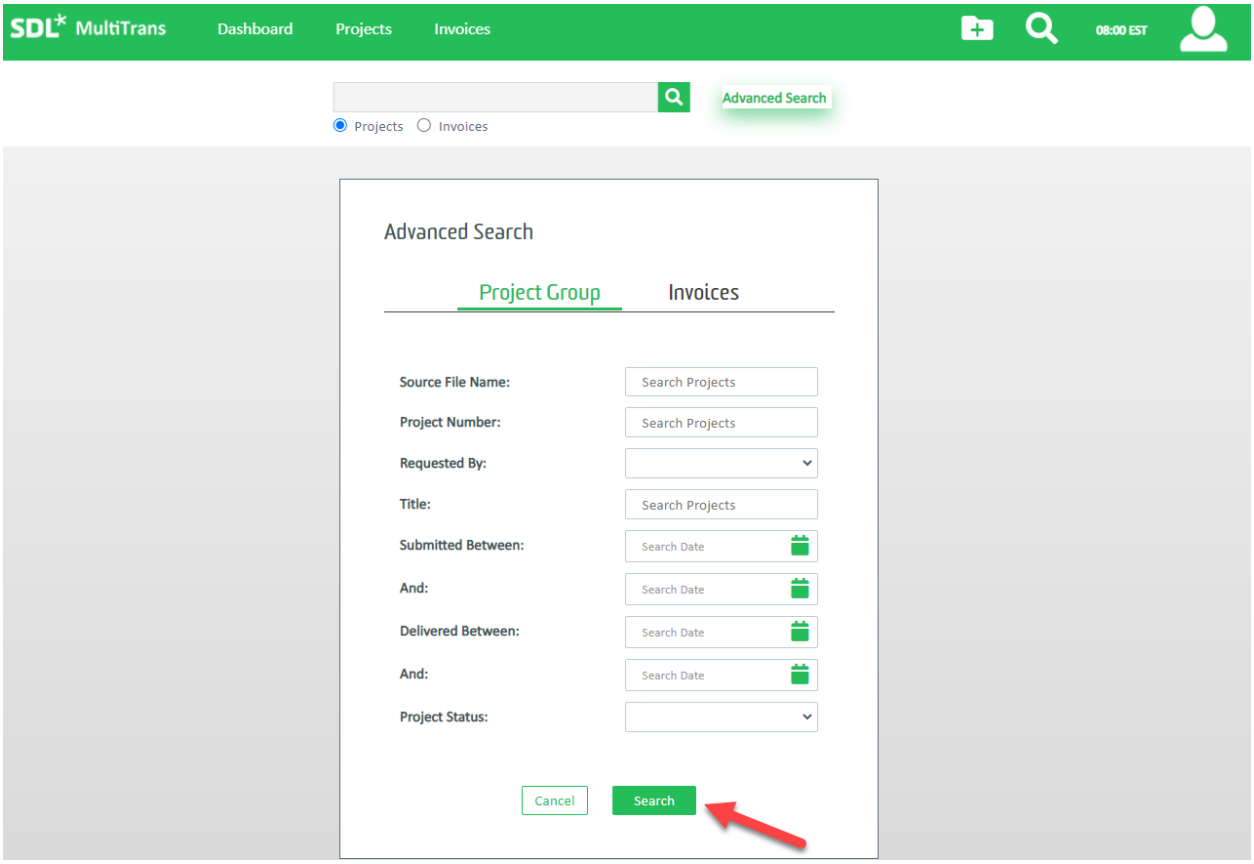
To search for a project or invoice, enter a project number or invoice number in the search field.



You can also click on **Advanced Search** to access more options.



Enter the information required under either the **Project Group** or the **Invoices** section. Click on **Search** to see the results of your search.



New Project menu

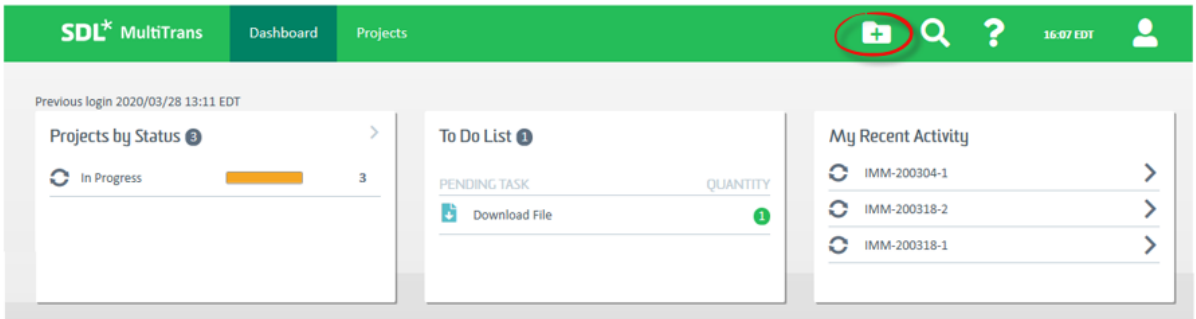
Submit a service request

There are two (2) options you can use to create a project (service request): create a new project from scratch, or use an existing project and clone it. The cloning option is easier because it minimizes the amount of information you will need to provide.

Refer to the **Create a New Project** and **Clone a Project** sections for instructions on how to use those two options.

Create a new project

1. From the **Dashboard** tab, click on the **New Project** icon to open the form and create a new service request. Please note that a translation service request becomes a project when submitted into GClingua.



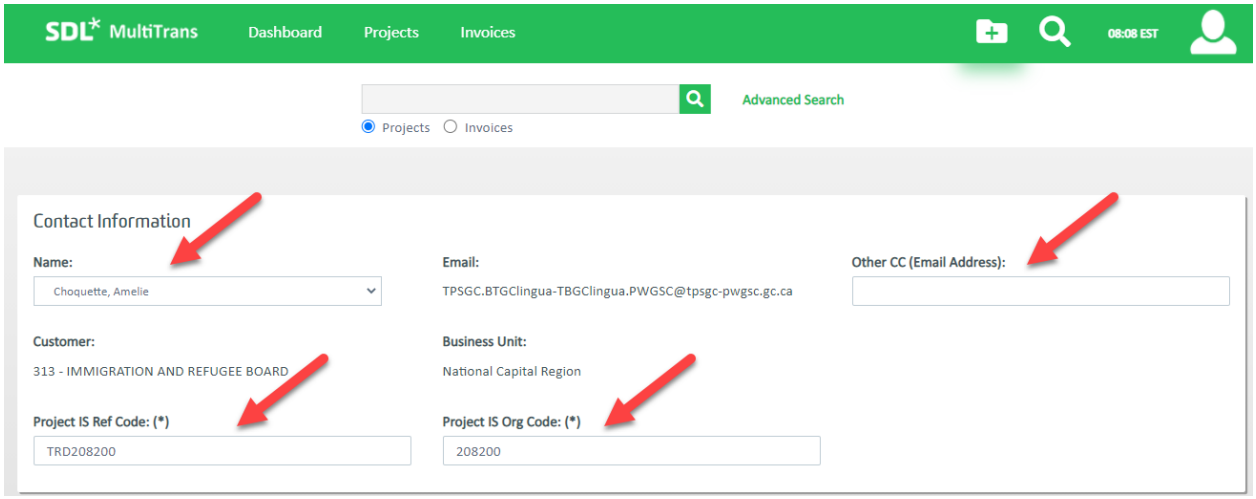
2. Fill in the required fields for each applicable section according to your project needs. You will notice that some fields will auto-populate. All mandatory fields are marked with an asterisk (*).

   You will see five separate sections:

   - Contact Information
   - Project Information
   - Instructions and Comments
   - Documents to Attach
   - Copy Short Excerpt to Translate (optional: this section is used only when you have a short text to be translated, instead of a document)

   Contact Information section

   a) Your name will auto-populate in the **Name** field. To choose a different name, select one from the drop-down menu.
   b) Enter the financial coding (XXX digits) in the **Project IS Ref Code** field.
   c) Enter the email address of any other recipients for this request in the **Other CC** field. They must have an active GClingua account in order to retrieve the document.



Project information section

d) Choose the type of service needed in the **Services List** field.
   - Refer to Annex 1 to see the Translation Bureau Services List.

e) Indicate the language of the document in the **Source Language** field.

f) Indicate the language required in the **Target Language** field.[1]

g) Indicate the security classification in the **Security Code** field.
   - Refer to Annex 2 for definitions of security levels.
     Note: It is important to make sure that the proper code is assigned to the project in order to prevent a security breach.
     If your document is rated "Protected C", "Confidential", "Secret" or "Top Secret", it cannot be attached to your request in GClingua. Please specify in the In**structions and Comments** field how your document will be sent to the Translation Bureau.
   - Refer to the following webpage for the updated security level definitions: https://www.tpsgc-pwgsc.gc.ca/esc-src/protection-safeguarding/niveaux-levels-eng.html

h) Select the type of text in the **Document Type** field.

i) Indicate the specialty of the text in the **Domain** field.

j) In the **Partial Translation** field, indicate whether only part of the document needs to be translated (e.g. for modifications to an existing translation). *While not mandatory, you can hide the text that does not need to be translated, in order to speed up the processing of the document.*

k) The **Date Requested** field will auto-populate.

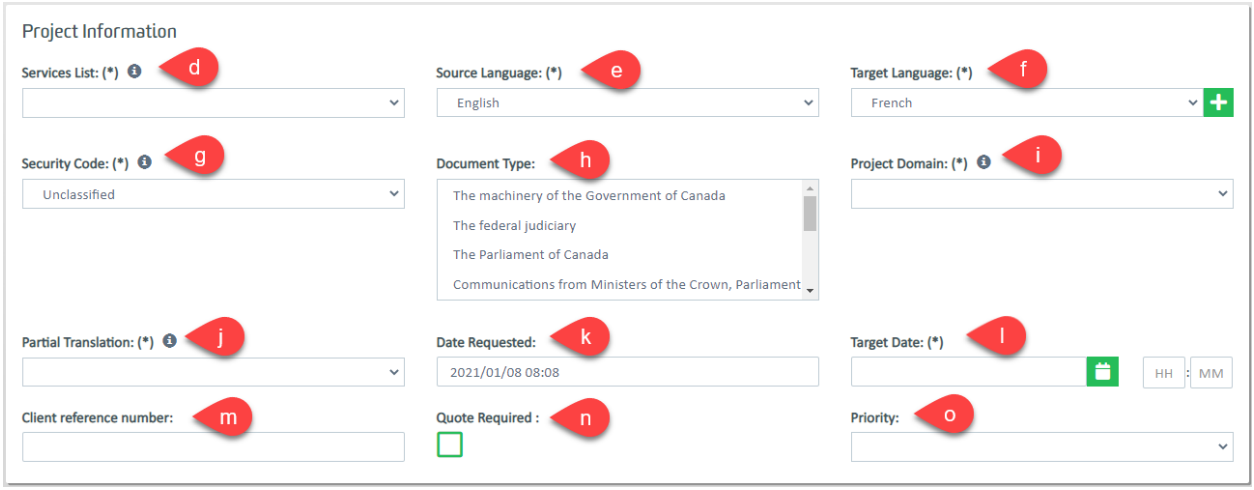
l) Indicate the requested deadline in the **Target Date** field, keeping in mind the Translation Bureau Service Standards.

m) If you wish, enter a reference number for your own records in the **Client Reference Number** field.

n) If you want a quote before the translation begins, make sure to select the **Quote Required** checkbox.

o) If your project is urgent, make sure to select **Urgent** in the Priority field.

[1] You can add multiple languages in the **Target Language** field for all multilingual requests (but not for official languages requests).



3. Add any special information, instructions or comments for the Translation Bureau in the **Instructions and Comments** box.

Other examples of instructions and comments:

- Please use the terminology contained in the reference documents provided.
- This document is for the Minister.
- We don't need the translation of the speaking notes, but we do need the translation of the screenshot. You will find the original file for the screenshot in the reference document.
- We only need the translation of the yellow-highlighted portions of the document. Please add these translated portions to the French document attached in reference.
- Please do not translate the speaking notes in the PPT.
- Translate all the images.
- Do not translate the images.

Advice for a successful experience

Put as much information in the **Instructions and Comments** box as you can about what you are expecting from the Translation Bureau. The more information you can provide, the faster the Translation Bureau will be able to process your document without having to ask you for clarifications.

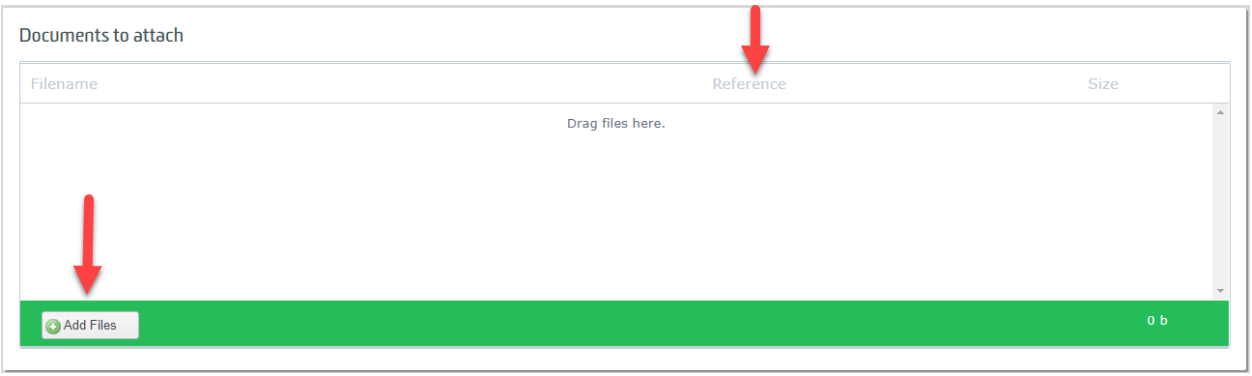
4. Add documents in the **Documents to Attach** section. This option is used to add both files to translate and files that are to be used as a reference, when applicable (step d).

There are two ways to add documents: either drag and drop the documents in the **Documents to Attach** box (step a), or use the **Add Files** button (steps b and c).

a) To drag and drop a document, simply click on the document and move it to the **Documents to Attach** box. You can attach more than one document at the same time by holding down the Shift key, clicking on the documents with your mouse, and then moving them to the **Documents to Attach** box.

The basic sequence involved in drag and drop is as follows:

- Move the pointer to the object.
- Press **and hold down** the button on the mouse or other pointing device in order to "grab" the object.
- "**Drag**" the object to the desired location by moving the pointer there.
- "**Drop**" the object by releasing the button.



b) Click on the **Add Files** button to open the File Explorer to select a document to attach. You can attach more than one document at a time by holding down the Shift key, clicking on the documents with your mouse and then clicking on **Open**.

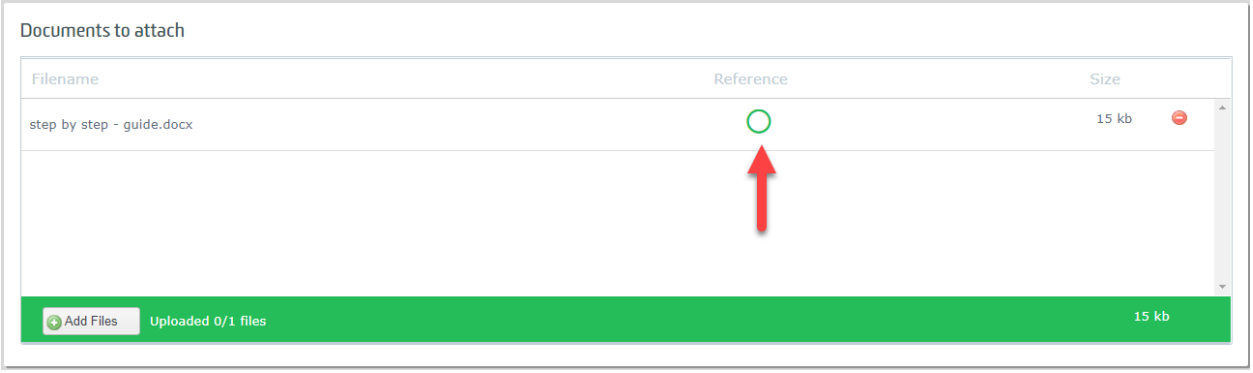
Note: While not mandatory, it is strongly recommended to zip any documents that exceed 5 MB.

- To select just a handful of files, hold down the Ctrl key as you click on each one in turn.

- To select a large number of files, click on the first file, hold down the Shift key, and then click on the last file. (It is okay if you need to scroll between the first and second steps.)

c) Select the document(s) and click on the **Open** button. This will attach the document(s) to the form.

d) Once the documents are attached, make sure to identify any that are to be used only as a reference by clicking on the **Reference** circle.



Copy a short excerpt to translate

The **Copy Short Excerpt to Translate** box allows you to enter text directly into the request (without adding a file). This text will be converted into an XML file when the project is submitted. The translation will be delivered in the same way as a service request for a regular document. This box allows you to enter a maximum of 1,500 characters or 250 words.

To submit a service request by using this box:

1. Copy or type the short text to be translated in the **Copy Short Excerpt to Translate** box.
2. Click on the **Submit** button.

No matter which option you choose for adding text to translate, once the project (service request) is submitted, it will be displayed and listed in the **Projects List** summary.

Note: For terminology requests, chose **Terminology** in the **Services List**.

Projects List

The Projects List section displays a list of your service requests.

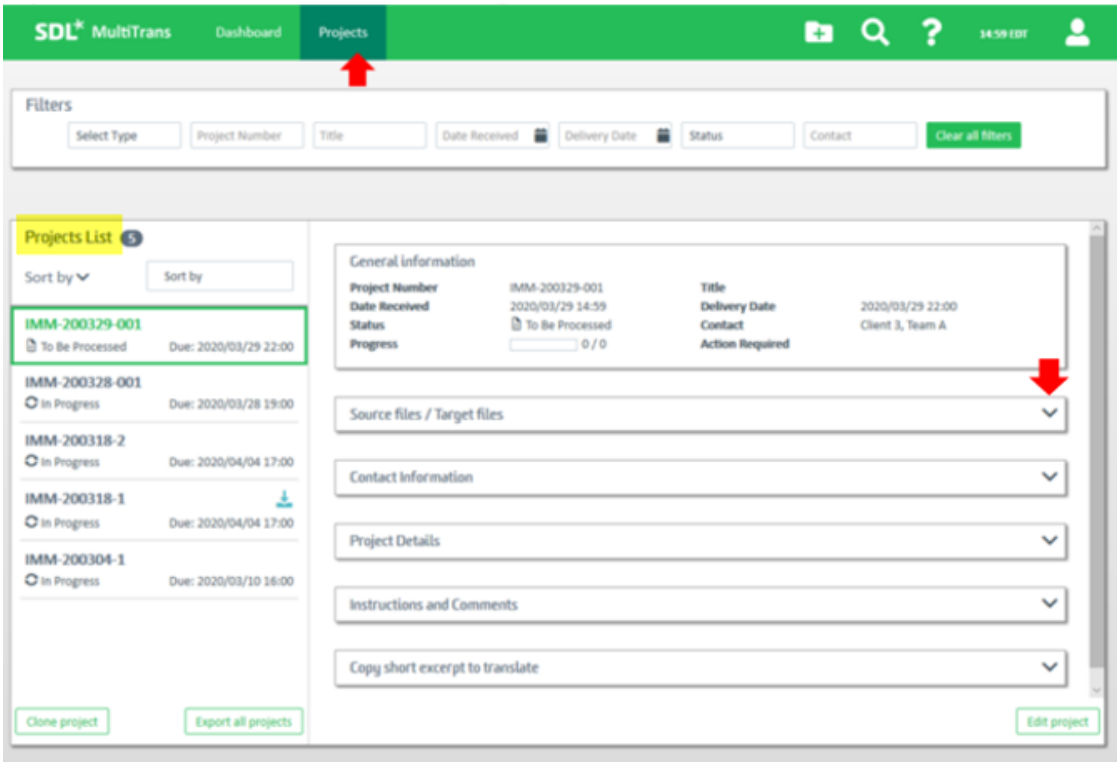
Each project (service request) can be viewed by clicking on the service request number in the list.

The status of each project is displayed on the left side in this section. The possible status are as follows:

- **To Be Processed:** projects that have been submitted but for which the work is not yet underway.
- **Waiting for Quote:** projects for which a quote must be provided before the work can start.
- **Waiting for Approval:** projects for which a quote has been provided and is pending your approval before the work can start.
- **In Progress:** projects that are underway.
- **Completed:** projects that have been completed and closed over the last three months.
- **Delivered:** projects that have been delivered over the last three months.
- **Cancelled:** projects that have been cancelled.
- **Customer Review:** in-progress projects that are pending your review prior to delivery.
- **Pending Delivery Review:** delivered projects that are pending your review.

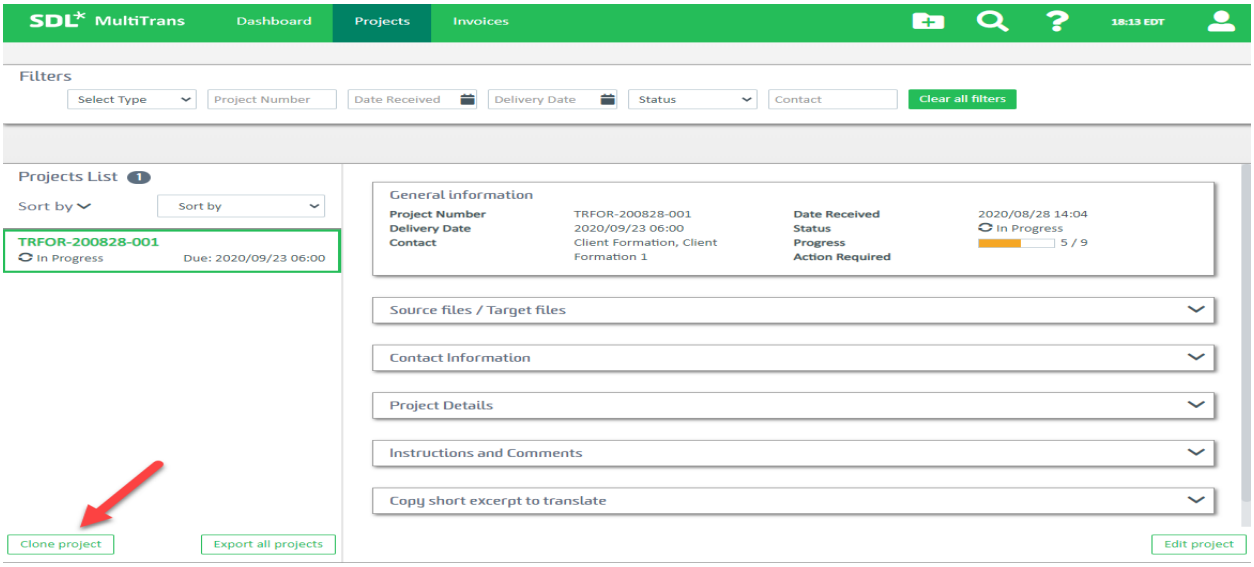
To display a specific project,

1. Click on the **Projects** menu at the top of the page. On the left side of the screen, you will see a list of all your projects. On the right side, you will see the general information related to the selected project. Click on the down arrow to the right of each section title to see additional details.



Clone a project

The **Projects List** section displays a list of your service requests. In this section, you can use an existing project to create a new project. This will minimize the amount of information you need to provide for the new project in order to submit it to the Translation Bureau.



To clone a project:

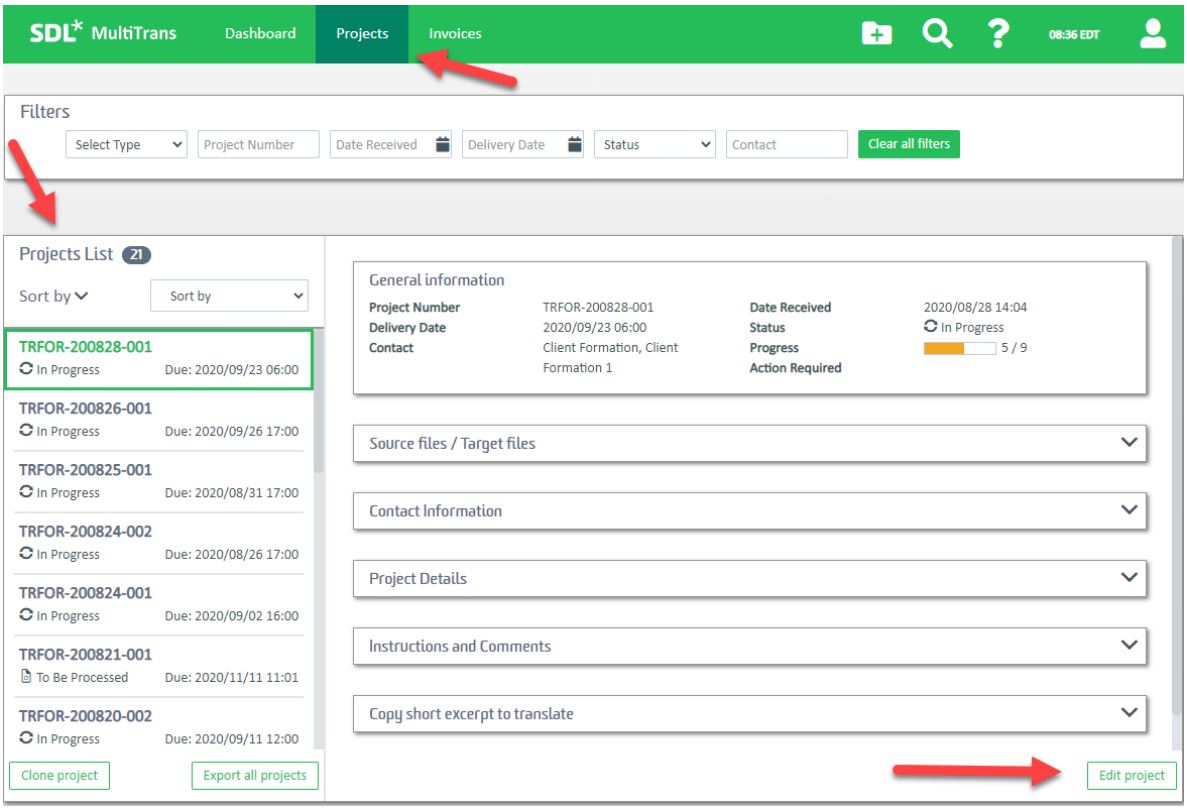
1. Select a project from the **Projects List** by clicking on the project number.
2. Click on the **Clone Project** button at the bottom of the **Projects List**.
3. Modify the **Contact Information**, if applicable.
4. Indicate the deadline in the **Target Date** field of the **Project Information** section, keeping in mind the Translation Bureau Service Standards.
5. Add files to translate and reference documents or use the **Copy Short Excerpt to Translate** box. Make sure to identify documents that are to be used only as a reference by selecting **Reference**.
6. Add any special information, instructions or comments for the Translation Bureau in **Instructions and Comments** box.
7. Click on the **Submit** button.

For more details on the project fields, refer to the **Create a New Project** section of this guide.

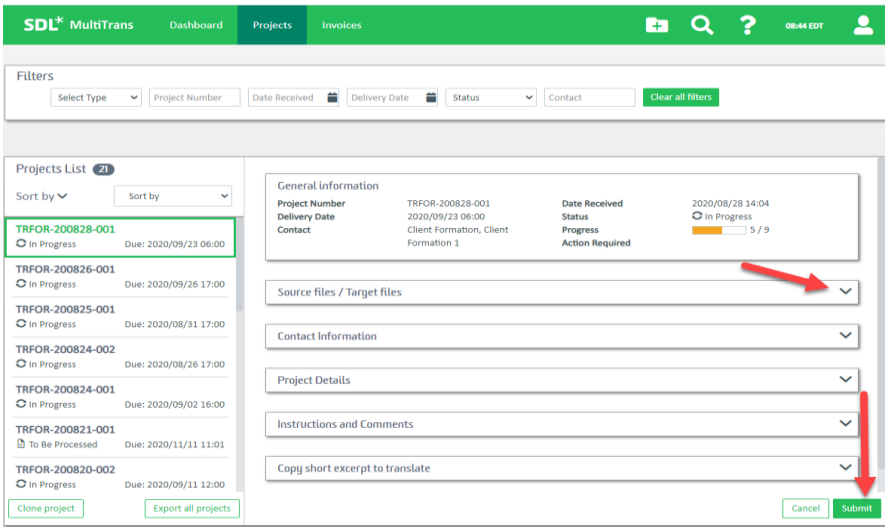
Modify (edit) a project

To modify an existing project,

1. Click on the **Projects** menu. This will display the **Projects List**.
2. In the **Projects List**, select the project that needs to be modified.
3. At the bottom right of the screen, click on the **Edit Project** button.



4. To make modifications, click on the down arrow for the appropriate fields (e.g. to add or replace documents).
5. Click on the **Submit** button.



Cancel a quotation request

To cancel a quotation request,

1. Click on the **Projects** menu. This will display the **Projects List**.
2. In the **Projects List**, select the project for which you would like to cancel the quote.
3. At the bottom right of the screen, click on the **Edit Project** button.
4. In the **Project Details** section, remove the **Quote Required** check mark.
5. Click on the **Submit** button when finished.

Note: You cannot modify a project for which the service fulfillment process has started. If you need to modify such a project, contact your client advisor.

Cancel a project

A project that has been submitted cannot be recalled or cancelled from the Client Portal.

To cancel an existing request, you must contact either your client advisor or the Client Contact Centre at the Translation Bureau (by phone at 1-855-997-3300 in Canada and the United States or 819-997-3300 in the National Capital Region, or by email at Bureaudelatraduction.TranslationBureau@pwgsc-tpsgc.gc.ca) and provide the client project number.

When advised of the client project number, the Translation Bureau will assess whether any work has been started and whether a billing charge is to be processed. If the work has not been started, the request can be cancelled.

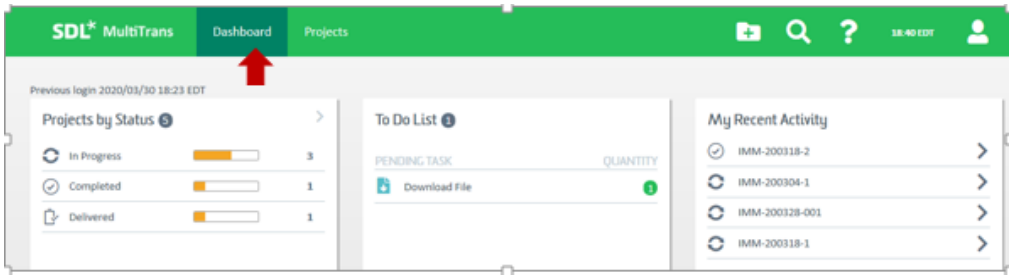
Note: To reopen a cancelled request, you must contact either your client advisor or the Client Contact Centre at the Translation Bureau and provide the client project number.

Retrieve a delivered project

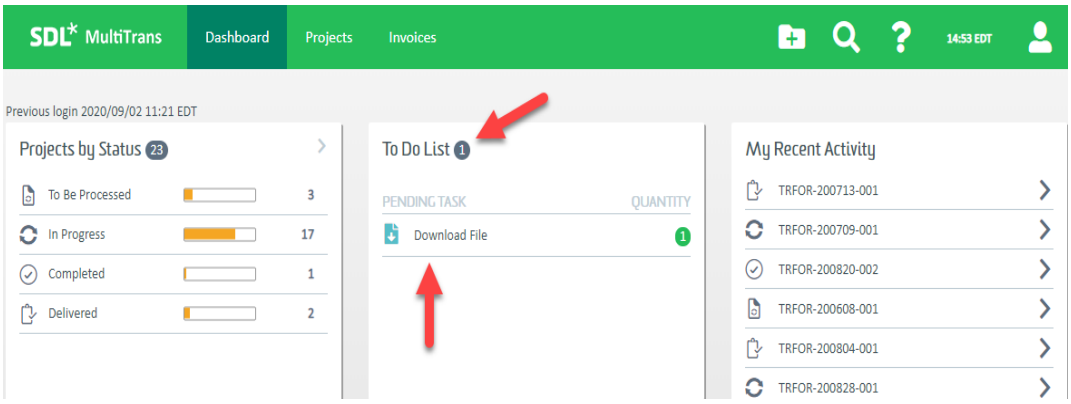
Once a project (service request) has been delivered in GClingua, you will receive an email notification at the email address in your account profile. It is important to remember that once the project has been delivered, it cannot be modified. A link to the delivered document(s) will be included in the email. Clicking on the link will bring you to the GClingua Client Portal, where you will be prompted to log into your account.

To retrieve a project that was completed by the Translation Bureau,

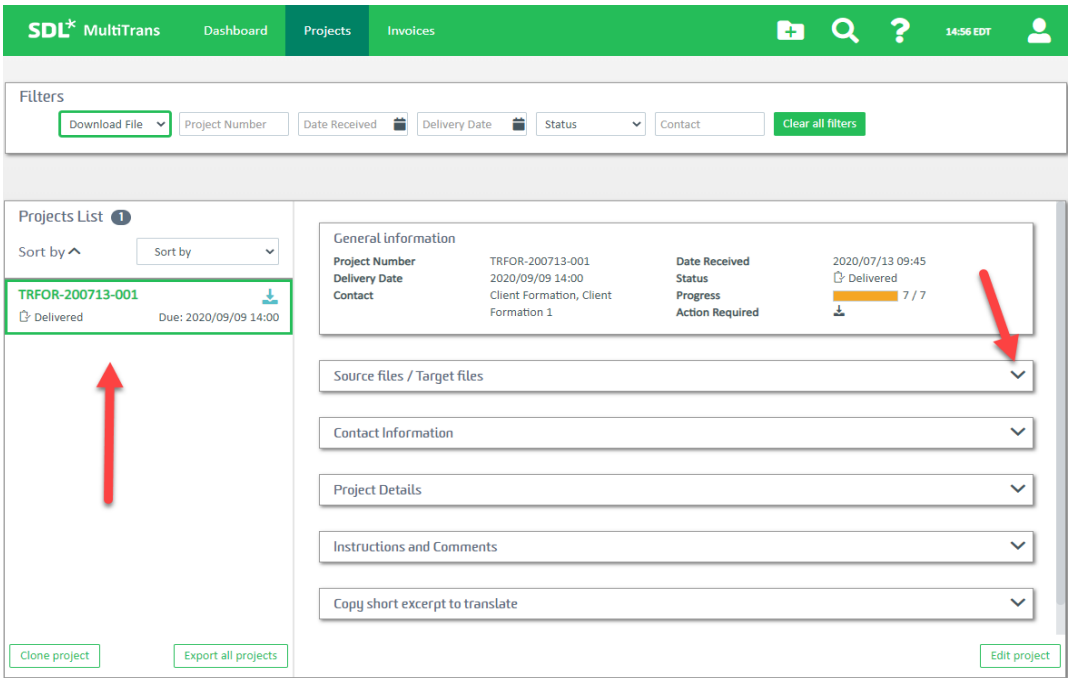
1. Click on the **Dashboard** menu.



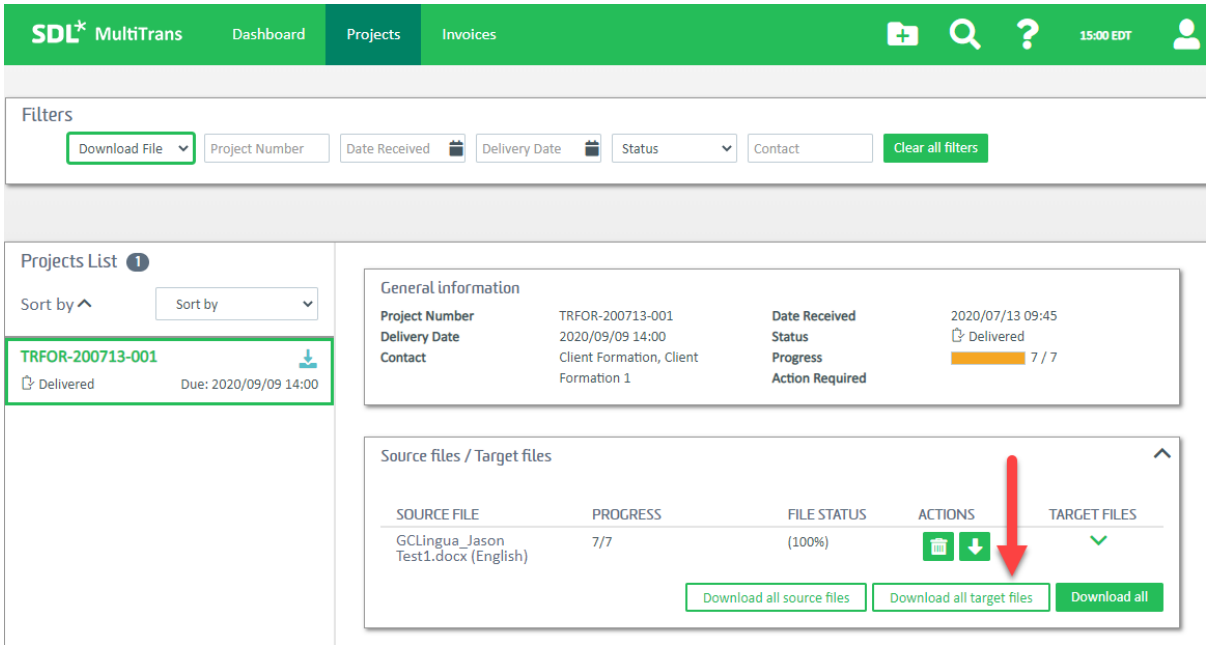
2. In the **To Do List** section, click on **Download File**.



3. Under **Projects List**, the projects with the status delivered will appear. Click on the project number and then on the arrow under **Source Files / Target Files**.



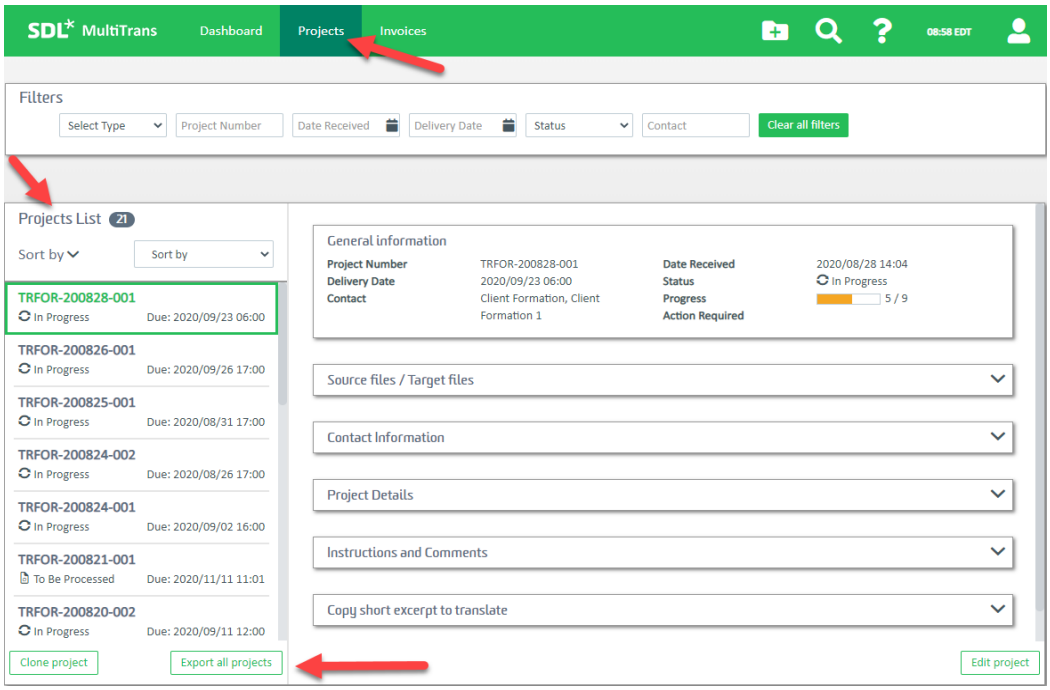
4. To download your translated document(s), click on **Download All Target Files**.



Export all projects

The **Projects** page gives you access to all projects that you have created. Click on the **Export All Projects** button to export all your projects into a CSV file that can be opened in an Excel spreadsheet.

1. Click on **Export All Projects** on the bottom left of the screen.



2. Your projects will be listed in CSV format, which can be opened in Excel, as shown below:

	A	B	C	D	E	F	G	H	I	J	K	L

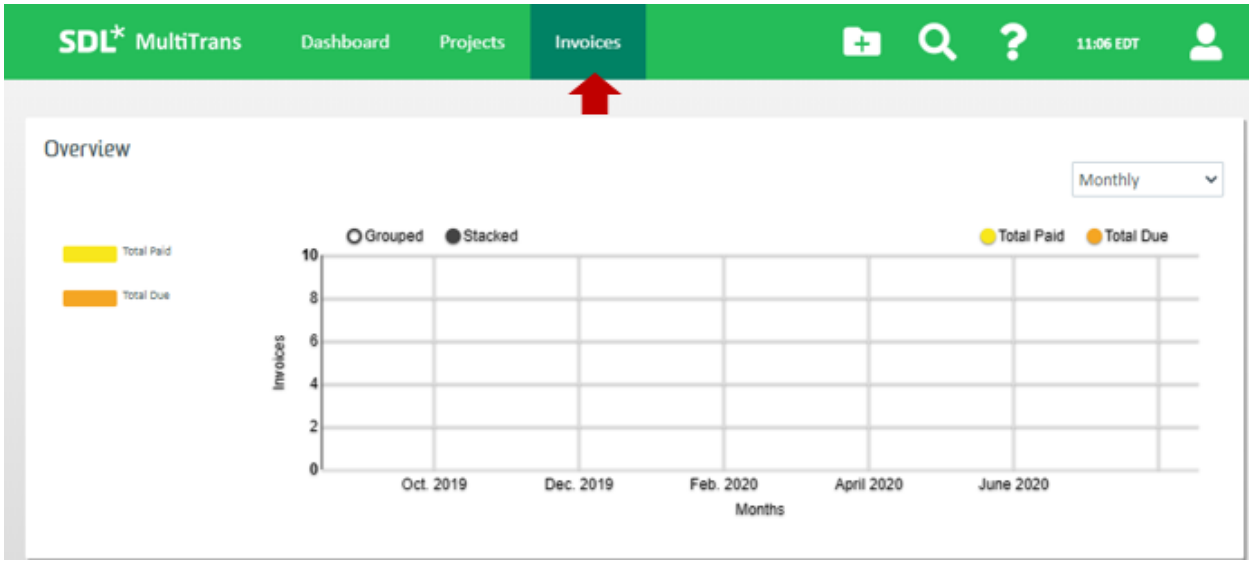
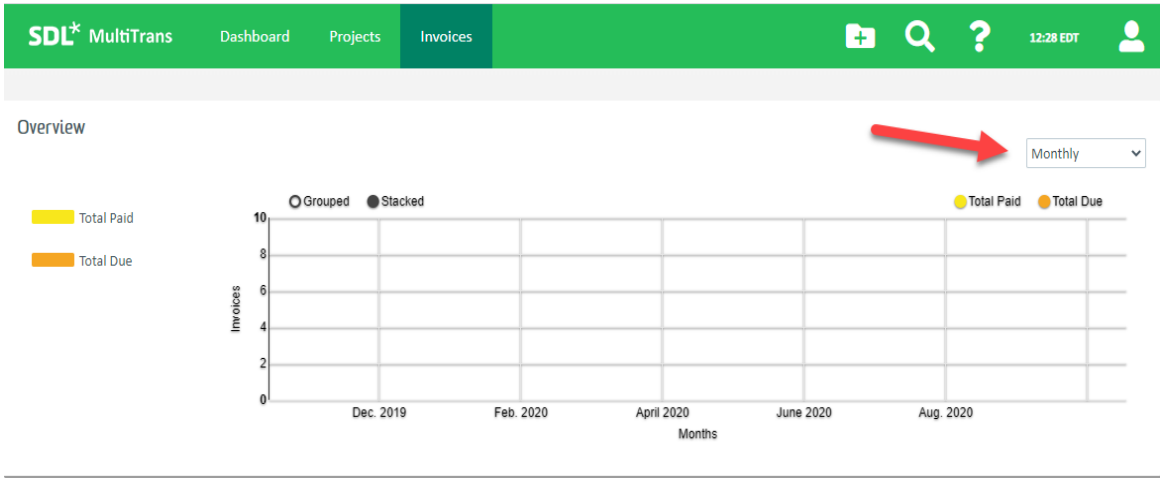
Invoices

The **Invoices** section displays all the invoices received. Click on the **Invoices** tab in the main navigation menu.

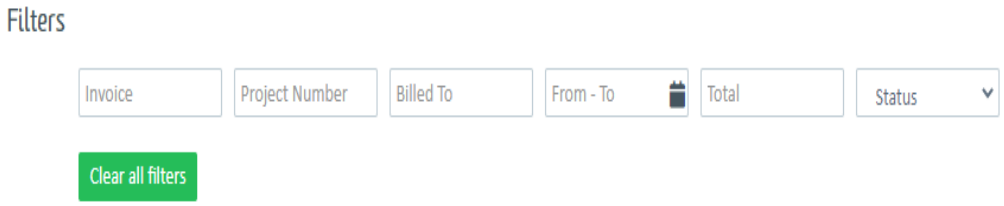


You can filter the results by selecting either **Monthly** or **Annually**.



The invoices available to you are listed in a table at the bottom of the screen.

When looking for a particular invoice, use the **Filters** section to refine the search by entering the **Project Number**.



Annex 1 – Services list

TRANSLATION	Rewriting a text in another language, taking into account the tone, style and terminology used by the author.
EDITING (UNILINGUAL)	Improving an original text by correcting the grammar or style or by suggesting solutions to make the text easier to read and understand.
REVISION OF A TRANSLATION	Editing a document that has text in two languages and then translating the document into each of the two languages.
INTERPRETATION	Providing interpretation services in official, Indigenous or foreign languages.
SIGN LANGUAGE INTERPRETATION (ASL AND LSQ) AND ORAL TRANSLITERATION	Providing interpretation services in American Sign Language or *Langue des signes québécoise*, or providing oral transliteration services (facilitating lip-reading).
PROFESSIONAL EVALUATION	Assessing in detail the quality of translations, revisions or any text written in English or French, using recognized criteria that ensure fairness and objectivity. The assessment is presented either as a detailed report (with supporting examples) or as brief comments on each text.
TERMINOLOGY SERVICES	Developing customized glossaries and standardizing terminology through participation in ad hoc committees and other terminology projects.

The Translation Bureau's federal clients can find out more about our services at http://gcintranet.tpsgc-pwgsc.gc.ca/bt-tb/ministeres-departments/accueil-home-eng.html.

Annex 2 – Security levels

https://www.tpsgc-pwgsc.gc.ca/esc-src/protection-safeguarding/niveaux-levels-eng.html

Please select the security level of the documents you are submitting to the Translation Bureau. If you are submitting several documents that have different security levels, select the highest security category.

Unclassified: Applies to information when no injury would result from its compromise.

Protected A: Applies to information when unauthorized disclosure could reasonably be expected to cause limited or moderate injury outside the national interest, for example, disclosure of an exact salary figure.

Protected B: Applies to information when unauthorized disclosure could reasonably be expected to cause serious injury outside the national interest, for example, loss of reputation or competitive advantage.

Protected C: Applies to the very limited amount of information when unauthorized disclosure could reasonably be expected to cause extremely grave injury outside the national interest, for example, loss of life.

Confidential: Applies to information when unauthorized disclosure could reasonably be expected to cause limited or moderate injury to the national interest.

Secret: Applies to information when unauthorized disclosure could reasonably be expected to cause serious injury to the national interest.

Top Secret: Applies to the very limited amount of information when unauthorized disclosure could reasonably be expected to cause exceptionally grave injury to the national interest.

Levels of Security

Sensitive government information and assets	**Protected** Unauthorized disclosure could reasonably be expected to cause injury to a non-national interest; that is, an individual interest such as a person or an organization. **Protected A** Injury to an individual, organization or government **Protected B** Serious injury to an individual, organization or government **Protected C** Extremely grave injury to an individual, organization or government	**Classified** Unauthorized disclosure could reasonably be expected to cause injury to the national interest – defence and maintenance of the social, political and economic stability of Canada. **Confidential** Injury to the national interest **Secret** Serious injury to the national interest **Top Secret** Exceptionally grave injury to the national interest
Personnel	**Reliability status (RS)** Required by an employee working on a sensitive government contract to access Protected (A, B, and C) information and assets.	**Personnel security clearance (PSC)** Required by an employee working on a sensitive government contract to access Classified (Confidential, Secret, Top Secret) information and assets (may also access Protected information).
Private sector organization	**Designated organization screening (DOS)** Allows an organization to send appropriately security screened personnel with a need-to-know to restricted work sites to access protected information and assets.	**Facility security screening (FSC)** Allows a company to send appropriately security screened personnel with a need-to-know to restricted work sites to access Protected and Classified information and assets.

North Atlantic Treaty Organization (NATO): Canadian classified security levels correspond to those of NATO but require a special briefing and agreement to NATO terms.

Additional organization screenings may be granted to organizations with a DOS or FSC.

Document safeguarding capability (DSC): the authorization for organizations to store, handle and protect Protected or Classified information or assets at their work site(s). **Production:** the authorization for organizations to manufacture sensitive assets. **Physical Security for IT Security or COMSEC/ INFOSEC:** may be required for specific contracts.

Canada

Annex 3 – Domains

ADMINISTRATIVE AND GENERAL TEXTS	General or administrative documents relating to various Government of Canada business lines and requiring general translation skills.
BIOLOGY	Documents relating to animal or plant biology, forestry, silviculture, biotechnology, genetics, fisheries, or aquaculture.
CRIMINOLOGY	Documents relating to criminology (police forces, border services, emergency preparedness, national security, intelligence methods, or correctional services)
EMPLOYMENT	Documents relating to human resources management, employment, or social security.
ENVIRONMENT	Documents relating to energy from fossil fuels or renewable sources, nuclear energy, ecology or the environment, agriculture (production of primary plant products) or livestock (production of primary animal products, excluding fisheries or aquaculture), or agri-food (processing or industry).
FINANCE	Documents relating to financial or budgetary management, government accounting or auditing, taxation, customs, economics, finance, applied statistics, or econometrics.
GOVERNMENT CONTRACTS AND PROCUREMENT	Documents relating to government contracts, contract administration, or government procurement policies or strategies.
IMMIGRATION	Documents relating to immigration, refugee status, Canadian citizenship, passport and visa application processes, or related systems and programs.
INDIGENOUS	Documents relating to Indigenous peoples (social, economic or political development, implementation of legislation, or program administration).

LAW	Documents relating to the administration of justice or the law, more specifically to commercial law, copyright, the courts, administrative law, constitutional law, criminal law, Indigenous law, family law, tax law, civil law, maritime law, labour law, collective, national or international agreements, or contracts.
MECHANICAL	Documents relating to land and railway vehicles (particularly the mechanical aspect of these vehicles), aircraft construction, flight mechanics or flying, boat and ship building or marine engineering, machines or tools, or weapons systems.
MEDICINE	Documents relating to medicine or its specialties, health promotion (including occupational health and safety), veterinary medicine, or dentistry.
MILITARY	Documents relating to military logistics, military operations, the Royal Canadian Air Force, the Canadian Army, or the Royal Canadian Navy.
PARLIAMENTARY PROCEEDINGS	Documents relating to parliamentary proceedings, Canadian politics, or the Canadian parliamentary system.
REAL PROPERTY	Documents relating to accommodation, real property management or appraisal, land, or property transfers.
SCIENCE	Documents relating to geology, oceanology, the atmosphere, meteorology, geodesy, remote sensing, chemistry, astronomy, astrophysics, aerospace, or mathematics.
SOCIOLOGY	Documents relating to politics, diplomacy, sociology, education, music, literature, performing arts, visual arts, museology, recreation, sports, library science, or history.
SOFTWARE, APPLICATIONS AND HARDWARE	Documents relating to information technology, software, applications, or hardware.

TECHNICAL	Technical documents relating to the textile or clothing industry, the wood, paper, furniture or printing industry, the mining industry, the materials industry, telecommunications (including broadcasting, radiocommunications, telephony, and telematics), electricity or electronics (including the construction, operation, or maintenance of electrical or electronic equipment), building construction, land use, civil engineering, or metrology.
TRANSPORT	Documents relating to air transport (including air traffic control), marine transport (including marine navigation), rail transport, or road transport.
